

TESTIMONIAL

ATCC has worked very closely with our company to provide our business with a total business operating manual, along with systems that meet & exceed all standards of Trucksafe & NHVAS accreditation systems.

The implementation of our systems by ATCC has not only provided compliance to regulatory rules & regulations, but has provided our company with complete confidence of meeting our obligations under Road Transport's Chain of Responsibility regulations.

Our customer overview document has provided our customers with the relevant information required to allow them to be confident that they are dealing with a transport provider who has their best interests in mind at all times, whilst being compliant to Road Transport law.

ATCC has helped us reinforce to our staff & our customers that strong compliance systems not only proves compliance to regulatory rules & regulations, but provides better efficiency within our business by "managing what we measure".

Smart Compliance at work for you

CONNECTING YOUR BUSINESS TO THE COMPLIANCE RESOURCES YOU NEED

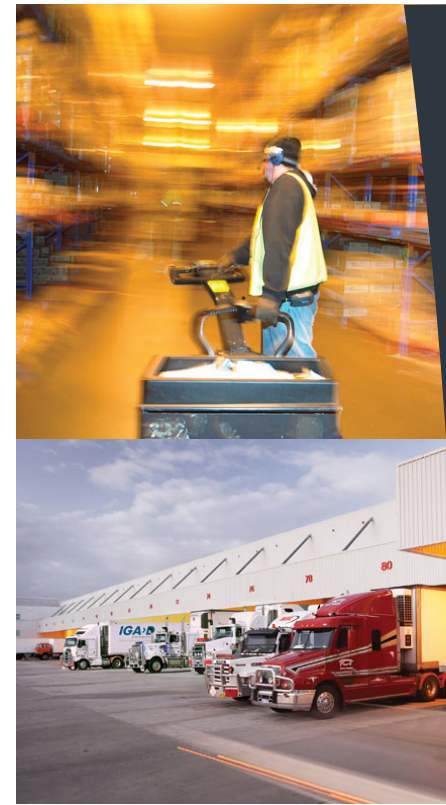

ATCC has been at the cutting edge of road transport compliance for the past 14 years. Incorporated in 1998 by Managing Director Richard (Dick) Kyle the business was set up to meet growing need for subject matter expert advice in the area of compliance management.

A quote from Dick in an article published in Truck & Bus May 1999 sums up the company's philosophy;

"Smart Compliance will make the Chain of Responsibility a tool to emphasise the responsibilities' of each individual in the chain..."

Smart Compliance has been the guiding principal for ATCC throughout the past decade and has seen the company develop and contribute to some of the industry's leading compliance programs.

ATCC continues to be at the cutting edge of road transport compliance and remains the smart compliance link in any supply chain.

NHVAS AUDITING

National Heavy Vehicle Accreditation Scheme (NHVAS) Audits – ATCC can provide NHVAS auditing services Australia wide for Mass, Maintenance and Fatigue management. Further information on NHVAS can be found at: www.ntc.gov.au
